

BABU

CHEMISTRY GRADUATE

Hosur, Krishnagiri, Tamil Nadu | +91 89403 20933 | babu.chem2006@gmail.com

PROFILE SUMMARY

Enthusiastic Chemistry graduate with a strong foundational interest in atoms, chemical processes, and thin-film materials science. Possesses an excellent academic background combined with hands-on analytical laboratory skills and an industry-oriented mindset. Highly motivated to contribute toward technical operations and scientific research while expanding professional expertise within the chemical, pharmaceutical, or advanced manufacturing sectors.

EDUCATION

Bachelor of Science (B.Sc.) in Chemistry	2023 – 2026
<i>Arignar Anna College of Arts and Science, Periyar University (Krishnagiri)</i>	
Higher Secondary Certificate (HSC) Class 12th (Science)	2021 – 2023
<i>Government Boys Higher Secondary School, Shoolagiri</i>	
Secondary School Leaving Certificate (SSLC) Class 10th	2016 – 2021
<i>Government Model Higher Secondary School, Shoolagiri</i>	

ACADEMIC RESEARCH PROJECT

Synthesis and Characterization of CZTS Nanomaterials	Final Year Project
<i>Copper Zinc Tin Sulfate (CZTS) Thin-Film Semiconductor Research</i>	
- Investigated advanced chemical synthesis pathways and structural frameworks to isolate thin-film semiconductor nanomaterials. - Evaluated material characterization metrics and chemical properties for practical utility in solar cells and green energy platforms. - Maintained rigorous documentation of process logs, experimental parameter tracking, and safety compliance records. - Successfully prepared and presented project findings during the final oral examination (Viva Voce).	

PROFESSIONAL EXPERIENCE

VSRC Agro Products Pvt. Ltd. (Real Roots)	Industrial Internship
<i>Production & Quality Control Intern</i>	
- Assisted with front-line food processing and manufacturing steps, tracking raw extraction, filtration, and bulk packaging streams. - Monitored critical chemical parameters, material grading, and compliance baselines against fixed manufacturing metrics. - Acquired a robust operational understanding of preservation chemistry, pasteurization thresholds, and industrial Good Manufacturing Practices (GMP).	

TECHNICAL & PERSONAL SKILLS

Laboratory Skills:	Analytical Chemistry, Nanomaterials Synthesis, Volumetric Titration, Solutions Preparation, Standard Lab Safety Protocols, Quality Inspection & Control.
Digital Competencies:	Operating Systems (Windows environments), Microsoft Office Suite (MS Excel for data logging, MS PowerPoint for technical presentations, MS Word), Data Recording.
Core Soft Skills:	Strategic Problem Solving, Professional Communication, Time Management, Team Collaboration, Adaptability, Confidence & Body Language.

| CERTIFICATIONS & TRAINING

UNXT Soft Skill Certification Program — Organized and Certified by the Unnati Foundation

| LANGUAGES KNOWN

English, Tamil, Telugu, Kannada, Hindi (Full conversational and professional proficiency)
